

*Mergent Intellect is a database that supports a wide variety of business and job search information needs, with much of the data provided by Dun & Bradstreet. Highlights include:*

- **Data on more than 250 million active, inactive, public, private companies** – both domestic and international. All company information is provided by Dun & Bradstreet.
- Over 200,000 new **businesses are added to Mergent Intellect on a weekly basis** from information gathered by Dun & Bradstreet.
- **D&B First Research** database within Mergent Intellect covering over 1,000 industries which are updated on a quarterly basis. In addition, there is an archive of First Research industry reports going back over 12 years for each industry. Includes First Research alerts.
- **D&B Key Business Ratios** service within Mergent Intellect providing 14 business ratios on over 900 lines of business.
- **Advanced search option** which allows the user to cull through over 240 million companies with various search parameters including subsidiary status, location type, D-U-N-S Number, minority owned, women owned, Geo Mapping and others.
- **Unlimited downloading** with up to 2,000 records at a time.
- **SEC filings** and annual reports coverage.
- **Company news**, top business tweets and blogging through FirstRain.
- **Geo Targeted Mapping** – allows the user to choose a specific geographic area from a map to see all businesses located within a specific area.
- **Reverse Address Search** – allows the user to query to find what businesses are located at a specific address.
- **WhitePagesPro**, providing contact information on more than 250 million U.S. consumers which includes reverse phone lookup capabilities.
- **Nielsen** demographics data providing a variety of demographic reports.
- **Payment indicator** ranking companies from most likely to least likely to pay by Dun & Bradstreet.
- Full global **family tree data**.
- **Job Search Solution** through partnership with Indeed.com.
